

Managing Finances in a Turbulent Economy

It is in times of uncertainty that God may be calling us to re-examine our lives. And in the case of economic uncertainty, it is time for us to re-examine how we manage the resources that God has entrusted to us.

During this 2 hour workshop we focus on:

- How did we get into the mess we are in?
- What are we most concerned about with respect to our finances?
- How does the world's economy differ from God's economy?
- As Christians, how should we respond in times of economic crisis?
- What are some practical things we should be doing with respect to our finances?

To find out when and where the next Managing Finances in a Turbulent Economy workshop is being held, visit the Events page at the Generous Steward website: www.generoussteward.org
